Statement Concerning REACH and Substances of Very High Concern

Many of TOTAL PETROCHEMICALS USA, INC.'s polypropylene customers outside of Europe manufacture articles, which in most cases will not require registration or notification under REACH to be imported into Europe. Article 7 of REACH, defines circumstances under which article producers and importers are required to register or notify of substances in articles and details the requirements. Along with other requirements, Article 7 requires that any producer or importer of articles to notify the European Chemical Agency when an article contains Substances of Very High Concern (SVHC) in a concentration above 0.1 % (w/w).
